Summary

Motivated MERN Stack Developer with hands-on experience in building full-stack web applications using MongoDB, Express.js, React, and Node.js.Skilled in creating REST APIs, authentication systems, and responsiveuser interfaces. Passionate about learning modern technologies and building scalable web applications.

Skills

- **Frontend Development :** HTML,CSS,Bootstrap,Javascript,React.js, Redux Toolkit.
- **Backend Development :** Node.js, Express.js, REST APIs.
- **Database** : MongoDB,Mongoose .
- **Tools :** Git,GitHub,Postman,Browser DevTools, VS-Code .

Education

Bachelor Of Business Administration -Computer Application (BBA-CA) Jun 2021-May 2024

- **Savitribai Phule Pune University**
- **Dr.D.Y.Patil Arts,Commerce and Science Collage,Pimpri** | CGPA : 8.11/10

Higher Secondry Education-Commerce Aug 2019-Apr 2021

- **Shri Shiv Chhatrapati College,Junnar |** Percentage:83.83

Projects

ShopSphere – E-Commerce Web Application

- Built a full-stack e-commerce platform using MongoDB, Express.js, React.js, and Node.js.
- Implemented secure user authentication and authorization using JWT, bcrypt, and joi validation.
- Developed product management system with CRUD operations for adding, updating, and deleting products.
- Integrated Cloudinary for uploading and managing product images.
- Created shopping cart functionality using Redux Toolkit with dynamic add/remove/update quantity features.
- Built RESTful APIs with Express.js to handle product, user, and order operations.
- Implemented role-based access control (Admin & User) for managing products and orders.
- Designed responsive UI using React, Bootstrap, and reusable components.
- Added filtering and category-based product browsing for better user experience.
- Implemented order placement and order history system for users.

Live Demo : https://shop-sphere-snowy-psi.vercel.app

WordNest – Blog Web Application

- Developed a full-stack blog platform using React, Node.js, Express, and MongoDB.
- Implemented CRUD operations to create, edit, delete, and display blog posts.
- Built RESTful APIs using Express.js for managing blog data.
- Stored and managed blog content in MongoDB using Mongoose schemas.
- Designed a responsive user interface using React components.
- Integrated Axios / Fetch API to connect frontend with backend APIs.
